Final Project Proposal
Rachel Bishop

Proposal:

I intend on creating a portfolio website as my final project; coincidentially, the portfolio website I've been using for the last 2 years went down sometime over the last 3 months (which I discovered while redoing my resume last night) so I've been sending potential employers a dead link... a very bad look. So! I need a new portfolio site anyway so this will be really beneficial for me!

Ideas:

Because I want to use my portfolio site as a part of/extention of my resume, I want the style of my site to reflect the style of my resume. I intend on using the same colors, fonts, and graphic styles used in my resume and then further expanding those within the website.

Colors from resume:

Additional colors:

Fonts from resume:

TITLE FORMAT
Mrs. Eaves | Roman Petite Caps | 28 pt | 160 tracking

HEADLINE FORMAT
Mrs. Eaves | Roman Petite Caps | 18 pt | 160 tracking
